Risk Assessment and Management

The Salix Homes Group manages risk according to its Risk Management Framework. Risks are managed on an ongoing basis and are regularly reviewed by the Audit & Risk Committee, Board and Senior Leadership Team.

Our Risk Management Framework is subject to external review and scrutiny by Internal Auditors. Our risks are externally reviewed to ensure that they are appropriate to the work of the Association and are in line with the expectations of the Regulator of Social Housing (RSH).

Currently, there are no areas of the organisations business that are considered to represent a high level of risk of modern slavery and/or human trafficking. Potential risks are mitigated by our policies and procedures, controls built into our business operations and the knowledge, skills and behaviours of our staff.

Our Supply Chain

Salix Homes' supply chain is wide and diverse - from building and maintenance contractors through to suppliers of goods and services. The majority of these suppliers are based and trade in the UK.

For suppliers with significant annual spend levels, a signed contract is in place in line with Salix Homes' Procurement Policy.

Salix Homes is committed to continuously improving our procurement practices in relation to tenders and contracts, to ensure they reflect best practice and legislative requirements, and that modern slavery remains a key consideration in all procurement activities.

Salix Homes seeks to actively mitigate the risk of modern slavery and human trafficking occurring in the delivery of our services and throughout our supply chain by:

- Confirm that they have their own Modern Slavery Statement (if they meet the statutory thresholds) and provide a copy; and
- Accept the inclusion of additional clauses in supplier contracts, confirming that the supplier will take its own steps to eradicate slavery and prohibit the use of forced, compulsory or trafficked labour.

Effectiveness

Salix Homes recognises the importance of measuring the effectiveness of the risk mitigations put in place.

Our primary source of assurance, in relation to Salix Homes' supply chain, is the procurement evaluation process for suppliers which should demand visibility of supplier/contractor Modern Slavery Statements (where applicable) and/or policies. In addition, the Contract Manager reaches out to all suppliers on an annual basis to request an updated copy of their Modern Slavery Statements (where applicable) and/or policies.

Internal auditors will periodically review Salix Homes' approach to safeguarding as part of the approved Internal Audit Plan.

Our People Services Team maintain records of colleague training which provides assurance that key personnel are keeping up to date with latest, best practice developments in relation to modern slavery and safeguarding.

Training

All new Salix Homes colleagues are required to complete both Adult and Child Safeguarding Awareness e-learning training within six months of commencing employment. The training aims to educate and empower our colleagues to identify potential risk factors and at-risk groups, including signs of exploitation and how to respond to them.

In addition, mandatory Safeguarding Awareness refresher training is provided to all colleagues every two years.
